

Homeschooling with Bright Young Things Tuition Centres

Bright Young Things centres offer a unique homeschooling programme that is flexible and tailored to each student. Our clients have the option of blending our monthly after school memberships with our small daytime homeschooling groups, as well as private one-to-one tuition for any subject required. The benefit of homeschooling with Bright Young Things is that our students receive the social and academic benefits of learning in a school-like environment, but the lessons are far smaller, more individualised, and the tutors are far more accessible than teachers in a traditional school. Our centres are bright, friendly, and often less intimidating to students that may not be ideally suited to traditional schooling.

Recommended Lessons

	<i>Daytime Lessons</i>	<i>After School</i>
