## **FREQUENTLY ASKED QUESTIONS:**

### **What's the difference between combined 'combi' sessions and the classes?**

In our **combined sessions**, students work through our maths and English materials at their own pace. Supervised by our diligent tutors in a ratio of four students to every tutor, our combi sessions are designed to be a perfect compliment to classroom learning. Topics across the national curriculum are reinforced in a nurturing environment and key literacy skills including comprehension, creative writing, grammar and punctuation and numeracy skills including number, shapes and space, geometry, algebra and equations.

In our **classes**, students work in a small group, progressing through the curriculum week by week. Students benefit from the depth that each topic is explored within the class. They are challenged by their peers and have the opportunity to build confidence and share their ideas with the group. These intensive classes are tailored towards a specific goal, whether it be acing the 11+ exam, reaching the top of a secondary class, preparing for SATS exams, or perfecting handwriting.

### **Can I reschedule the sessions I've chosen?**

Absolutely, simply get in touch with us. Do ask us about the best times to attend - we would love to share tips as to when your child can get more one-on-one time with our tutors.

### **What happens if I miss a session?**

As long as you've given us 24 hours advance notice, we are more than happy to reschedule your session free of cost. Otherwise, we do charge a £20 fee for missed lessons to help us cover the admin and tutor costs involved.

### **How do you choose your tutors?**

We look for tutors that have the right combination of education, experience, and teaching methodology that fits with our ethos. Check out our website, or our in centre tutor profiles, to see the wide variety of specialities and skills that our tutors possess. Everyone that we work with holds an enhanced DBS check.

### **Do you set homework?**

We are pleased to offer weekly homework, marked and corrected with your child in centre, for £30 per month, for each subject that you feel your child needs an extra boost in. We highly recommend continuing the learning that we do in the centre at home.

### **I can only make it once a week - how can I attend?**

Your child is welcome to do both their sessions back-to-back. We have many students that do this and it is a great way to get all your learning in. Alternatively, we offer a once weekly membership.
