

Bright Young Things 11+ Easter Holiday Courses | BYT Harrow

From week beginning Monday 2nd April 2018 - Friday 13th April 2018

		WEEK 1				
		02/04/2018	03/04/2018	04/04/2018	05/04/2018	06/04/2018
MORNING	DATE					
	SUBJECT	11+ English	11+ Maths	Verbal & Non-Verbal Reasoning	11+ English	11+ Maths
	FOCUS	Comprehension	Word Problems	Codes and Patterns	Core Skills Booster	Core Skills Booster - Fractions, Decimals and Percentages
	DESCRIPTION	Using a combination of our materials and specific exam paper past questions, we will be working on comprehension techniques - key areas: thorough reading of text, underlining key words, tackling different question types inc. fact recall vs. longer inference questions	Using a combination of BYT Materials and exam papers we will look at effective ways to tackle longer word problems. Key areas are: extracting the right information, reading the passage fully & gaining quick and clear understanding of what mathematical processes are needed.	We will look at some of the letter code questions that arise in VR and NVR question types involving pattern recognition and odd-ones-out.	We will look at sentence structure, spelling, grammar, vocabulary, synonyms & antonyms.	We will cover fractions, decimals and percentage conversions. Understanding fractions, adding, subtracting, multiplying and dividing fractions, finding percentages of whole numbers, finding fractions of whole numbers, multiplying and dividing by decimals. Fraction, decimal and percentage word problems.
	TIME	10am - 1pm	10am - 1pm	10am - 1pm	10am - 1pm	10am - 1pm

		WEEK 2				
		09/04/2018	10/04/2018	11/04/2018	12/04/2018	13/04/2018
MORNING	DATE					
	SUBJECT	11+ English	11+ Maths	Verbal & Non-Verbal Reasoning	11+ English	11+ Maths
	FOCUS	Comprehension II	Word Problems II	Codes and Patterns	Core Skills Booster	Core Skills Booster - Number
	DESCRIPTION	In the second part of our comprehension sessions we will give students another chance to practice their comprehension skills. We will look at model answers, and reinforce skills based on identifying key information in the text, look at thorough reading techniques vs skimming, understand what an examiner is looking for.	We will work on successfully tackling word problems under the added pressure of time. How to quickly establish what is being asked and neatly work through a multi stage numerical process, displaying clean, clear working out.	Another chance for students to reinforce and build on key VR and NON-VR skills. We'll be working through one VR and one NVR papers as a group from start to finish to understand difficulty gradient and help students know what to expect and develop a familiarity with the assortment of question types	We will look at sentence structure, spelling, grammar, vocabulary, synonyms & antonyms.	We will cover fractions, decimals and percentage conversions. Understanding fractions, adding, subtracting, multiplying and dividing fractions, finding percentages of whole numbers, finding fractions of whole numbers, multiplying and dividing by decimals. Fraction, decimal and percentage word problems
	TIME	10am - 1pm	10am - 1pm	10am - 1pm	10am - 1pm	10am - 1pm

		11+ Maths	11+ English	11+ Mock Exam	11+ Mock Exam	11+ English
AFTERNOON	SUBJECT	11+ Maths	11+ English	11+ Mock Exam	11+ Mock Exam	11+ English
	FOCUS	Core Skills Booster - Geometry	Creative Writing	English and Maths Mocks	English and Maths Mocks	Past Paper Work
	DESCRIPTION	We will cover angles of polygons, properties of triangles, identifying shapes, measuring, creating triangles, quadrilaterals, area and perimeter. We will look at the typical word problems that arise concerning area and perimeter. We will also cover coordinates, forming shapes, rotational symmetry, translation.	We will look at equipping our students with key skills with a focus on story structure inc. beginning, middle, end, planning, narrative templates, introducing and defining character, establishing setting, use of literary devices, writing for the senses, building a useful comprehensive adjective bank, writing stories in timed conditions.	We will offer students a chance to sit a Maths and English mock exam. We'll ask parents to tell us which schools they are applying to beforehand and provide any info regarding exam board i. e. GL, ISEB, CEM (we are happy to work with you on this if you're not sure). Students will sit the exam in full exam style timed conditions and we will go through the paper in our follow up session in 2nd week.	We will offer students a chance to sit a Maths and English mock exam. We'll ask parents to tell us which schools they are applying to beforehand and provide any info regarding exam board i. e. GL, ISEB, CEM (we are happy to work with you on this if you're not sure). Students will sit the exam in full exam style timed conditions and we will go through the paper in our follow up session in 2nd week.	We will be working through an English 11+ past paper together as a class.
	TIME	2pm - 5pm	2pm - 5pm	2pm - 5pm	2pm - 5pm	2pm - 5pm

		11+ Maths	11+ English	11+ Mock Exam	11+ Mock Exam	11+ Maths
AFTERNOON	SUBJECT	11+ Maths	11+ English	11+ Mock Exam	11+ Mock Exam	11+ Maths
	FOCUS	Core Skills Booster - Geometry	Creative Writing	English and Maths Mock - Feedback	English and Maths Mock - Feedback	Past Paper Work
	DESCRIPTION	We will cover angles of polygons, properties of triangles, identifying shapes, measuring, creating triangles, quadrilaterals, area and perimeter. We will look at the typical word problems that arise concerning area and perimeter. We will also cover coordinates, forming shapes, rotational symmetry, translation.	We will look at equipping our students with key skills with a focus on story structure inc. beginning, middle, end, planning, narrative templates, introducing and defining character, establishing setting, use of literary devices, writing for the senses, building a useful comprehensive adjective bank, writing stories in timed conditions.	We will be going through the paper set in the previous week's mock exam from start to finish, marking our answers together looking at and dissecting any common errors that arose and encouraging successes so that students emerge feeling motivated and more equipped for the exam.	We will be going through the paper set in the previous week's mock exam from start to finish, marking our answers together looking at and dissecting any common errors that arise and encouraging successes so that students emerge feeling motivated and more equipped for the exam.	We will be working through a past 11+ Maths independent school entry paper as a class.
	TIME	2pm - 5pm	2pm - 5pm	2pm - 5pm	2pm - 5pm	2pm - 5pm

PRICING	
Individual Session	£60
Five Sessions	£285
Full Week (10 Sessions)	£540
