

is proud to be hosting...

26th July - 28th July

10am to 1pm Wednesday to Friday

- ✓ Creativity
- ✓ Critical Thinking
- ✓ Collaboration
- ✓ Computational Thinking

DiscoG Coding Academy

Young Coders July Bootcamp

at BYT High Wycombe

This workshop is an essential introduction to the joys of coding!

About DiscoG Coding Academy

Founded by Gerard Papet, a software engineer and CTO who held Senior Technology Management positions at companies such as Financial Times and Pearson Education, DiscoG Coding Academy offers coding classes and courses to bring coding skills to kids across the U.K.

Day 1.

A basic intro to using the Raspberry Pi and the Python Programming language.

Day 2.

Using the Pi & breadboards to write simple programs that control electronic circuits.

Day 3.

Analyse, design and write the code to simulate a basic traffic lights system.

"Everybody in this world should learn to programme a computer, because it teaches you how to think"

- Steve Jobs

What is programming?

Programming is the art of writing an ordered set of steps that are able to command a computer to solve a problem or perform a task.

Why is it important?

We are living in a world dominated by technology. Understanding hardware and software is now as important as reading & writing.
